

# JOHN TRACY'S STORY

Life is real - our triumphs and joys that make us feel we can conquer anything and our struggles and trials that threaten to take away all of our strength and joy.

John Tracy's music is for real people living real life. His release, "Break The Chain", was born of a desire to be transparent and share his experiences in life through his lyrics. His mission is to make a lasting positive impact on those around him by bringing hope and encouragement, connecting with his listeners and helping them realize they are not alone on their journey.

His music encourages us to focus on the people that are most important to us. We can't let the stresses of every day life - whether from the pursuit of things we think will make us happy or from merely trying to stay afloat - cause us to neglect those in our lives who are always there for us.

In the moments when it seems that life is collapsing in on us, we have to remember that the people around us are our foundation. Make time today to let those near you know how much they mean to you!

"John Tracy - "Break The Chain" is positive, inspiring, uplifting and speaks to your spirit with his soothing singing voice. John is a perceptive songwriter with strong courageous lyrics of hope and great musicianship."

**Joseph W. Neely Reynolds, Fort Worth NSAI Regional Workshop Coordinator & Producer & Host "THE SONG IN ALL OF US"**

"... a refreshing compilation of lyrics that gravitate toward faith, family and friends ... a collection of charming songs with inspirational messages."

**Hal Brown, Publisher - Fort Worth, Texas Magazine**

"John's songs are beautiful folk-rock tunes, filled with comforting & introspective lyrics... along with wisdom and a strong heart-felt voice. He carries the quality & consistency of Dan Fogelberg throughout all of his compositions ... making his wonderful tunes really shine with feeling & polished guitar craftsmanship."

**Mark Micklich, Songsalive!**

'We were very pleased with John Tracy's concert. John is a well rounded performer. He plays his acoustic guitar finger-style...providing a broad and solid foundation for his original songs. He writes positive songs of life and love. His songs vary considerably in style and tempo, so that his concert doesn't drag or fall into a rut. He was fun and interesting and had a distinct change up on each tune. I would say he's put some thought into his performance lineup. We will definitely have John back.'

**Raf & Sioux's House Concerts, Mineral Wells, TX**
